East Renfrewshire Domestic Abuse Project is a domestic abuse service hosted by Women's Aid South Lanarkshire, serving the communities across East Renfrewshire.

We aim to support and empower women, children and young people who are experiencing, or have experienced domestic abuse. We provide a range of needs led services including Refuge accommodation, support and information, which ensures improved outcomes. Our services are based on listening to women, children, young people and our partner agencies.

**WOMEN'S
OUTREACH
SUPPORT SERVICE**

Outreach services are available to women throughout East Renfrewshire, who have experienced **domestic abuse**, whether they remain at home or are living in temporary accommodation.

The aim of this service is to enable women to gain emotional and practical support, discuss issues relating to their experiences and to provide information and assistance for them whatever decisions they make. Support is confidential and is offered on a one-to-one basis, taking place in a safe venue.

Telephone and email support is also available.

Women can self refer or be referred by an agency.

How do I know if I'm experiencing domestic abuse?

Does your partner or ex-partner:

- Ignore you
- Criticise you
- Humiliate you
- Dislike your friends and interests
- Turn your children against you
- Insist you dress differently
- Withhold money from you
- Force you to do things against your will
- Throw objects at you
- Threaten to hurt you or your family
- Physically hurt you

If you answered yes to any of the above, this service is for you.

One Yes Is One Too Many.
