

# Adaptation example

**Katie Brown**  
**18 years old**

Currently lives with her mum and dad in a large two bedroom house with downstairs dining room. Katie has progressive Multiple Sclerosis meaning she now struggles with stairs as she relies more on her wheelchair.

## Katie's options are:

- ✓ Katie could contact the Housing Options team to ask for advice on moving home
- ✓ Katie would need to call HSCP first point of contact and arrange for an OT assessment
- ✓ Potential solutions may include ground floor level living with showering facilities in the dining room
- ✓ Katie could seek a private rental property that would suit her needs.

If referred by HSCP, Katie could be supported via Care and Repair East Renfrewshire for a grant to cover the cost of the shower adaptation.
