

Fairweather Drop-in

For the personal attention of Provost Mary Montague

We the members of Fairweather Drop-in Newton Mearns strongly object introduction of charges of HSCP non-residential care within East Renfrewshire Council.

Fairweather Drop-in has been running since 2005. Over the years we developed our scope activities and membership. We are well known for our unity in diversity: Sikhs, Hindus and Muslim communities get together, celebrate each other's festivals jointly.

Most of our members are old-age pensioners, many of whom live alone and immensely need non-residential care within their homes. Quite a lot of them have registered themselves with Self Directed Support and have been benefitting from the care provided by the HSCP of NHS. Everything has been going quite smoothly until this unfortunate proposal to start charging for the non-residential care has emerged. It is a very big worry for us.

You are sincerely requested to get our voices heard by the appropriate authorities.

We all wish you a Happy Diwali and thank you in advance for your help and cooperation in this very urgent matter. Thank you for another one of your gracious visits to join our festival.

Handed over by Jagdish Singh

General Secretary

On behalf of Fairweather Drop-in, Newton Mearns.
