

APPLICATION FOR PLANNING PERMISSION

Checklist – Application for Householder Application

Please take a few moments to complete the following checklist in order to ensure that you have provided all the necessary information in support of your application. Failure to submit sufficient information with your application may result in your application being deemed invalid. The planning authority will not start processing your application until it is valid.

- a) Have you provided a written description of the development to which it relates? * Yes No
- b) Have you provided the postal address of the land to which the development relates, or if the land in question has no postal address, a description of the location of the land? * Yes No
- c) Have you provided the name and address of the applicant and, where an agent is acting on behalf of the applicant, the name and address of that agent? * Yes No
- d) Have you provided a location plan sufficient to identify the land to which it relates showing the situation of the land in relation to the locality and in particular in relation to neighbouring land? *. This should have a north point and be drawn to an identified scale. Yes No
- e) Have you provided a certificate of ownership? * Yes No
- f) Have you provided the fee payable under the Fees Regulations? * Yes No
- g) Have you provided any other plans as necessary? * Yes No

Continued on the next page

A copy of the other plans and drawings or information necessary to describe the proposals (two must be selected). *

You can attach these electronic documents later in the process.

- Existing and Proposed elevations.
- Existing and proposed floor plans.
- Cross sections.
- Site layout plan/Block plans (including access).
- Roof plan.
- Photographs and/or photomontages.

Additional Surveys – for example a tree survey or habitat survey may be needed. In some instances you may need to submit a survey about the structural condition of the existing house or outbuilding. Yes No

A Supporting Statement – you may wish to provide additional background information or justification for your Proposal. This can be helpful and you should provide this in a single statement. This can be combined with a Design Statement if required. * Yes No

You must submit a fee with your application. Your application will not be able to be validated until the appropriate fee has been Received by the planning authority.

Declare – For Householder Application

I, the applicant/agent certify that this is an application for planning permission as described in this form and the accompanying Plans/drawings and additional information.

Agent:
Kirsten Mackenzie
30 Helensburgh Drive
Jordanhill
Glasgow
G13 1RS

Proposal: Replace hipped roof with new gable roof, to include 2 dormers to front elevation and 1 dormer to rear elevation. Tiled roof finish to match existing roof tile. Internal alterations at ground and first floor. New terrace to rear of house.

Location: 123 Ayr Road
Newton Mearns
East Renfrewshire
G77 6RF

CONSULTATIONS/COMMENTS: None.

PUBLICITY: None.

SITE NOTICES: None.

SITE HISTORY:

2004/0446/TP	Erection of single storey rear extension	Approved Subject to Conditions	28.06.2004
--------------	--	--------------------------------	------------

REPRESENTATIONS: No representations have been received.

DEVELOPMENT PLAN & GOVERNMENT GUIDANCE: See Appendix 1

SUPPORTING REPORTS: None.

ASSESSMENT:

Site and Proposal:

No 123 Ayr Road is a detached, bungalow dwelling with rear lean-to extension, driveway and garden. The property displays a pyramidal roof, hipped to all sides. Finishing materials comprise render to external walls (painted white), stone work; brown concrete roof tiles and Upvc windows.

A low wall bounds the front garden with driveway. The dwelling is set back from the pavement edge, and is visible from the street.

The application proposes removal of the roof and replacement with a complete new roof incorporating gables to the side. Two flat-roofed dormers are proposed to the principal elevation (roadside), and a single flat-roof dormer to the rear. A new window at first floor will feature to the north-eastern gable, and the lean-to extension will be adapted through the formation of French doors which will access a newly constructed raised deck/terrace.

Finishing materials to new walls and pitched roof will match the existing bungalow, and a synthetic rubber coating would be applied to the flat roofs of the dormers.

Principle:

Whilst the principle of house extensions are supported by the Development Plan, the proposal is required to be assessed against the policies of NPF4 and the East Renfrewshire Local Development Plan 2. The policies of NPF4 relevant in this case are Policy 14 (Design, quality and place) and Policy 16 (Quality homes). Policy 14 states that development proposals will be designed to improve the quality of an area whether in urban or rural locations and regardless of scale. Policy 16 states that householder development proposals will be supported where they:

- (i) do not have a detrimental impact on the character or environmental quality of the home and the surrounding area in terms of size, design and materials; and
- (ii) do not have a detrimental effect on the neighbouring properties in terms of physical impact, overshadowing or overlooking.

In relation to the East Renfrewshire Local Development Plan 2, adopted policies D1 and D1.1 are also must also be considered. Policy D1 requires that all development should not result in a significant loss of character or amenity to the surrounding area and Policy D1.1 requires that extensions and alterations should complement the character of the existing building in terms of its style, form and materials and not give rise to a significant loss of character or amenity to the surrounding area.

Visual Amenity and Design:

The position of the dormers, their scale, form and appearance would accord with the Council's House Design Guide which supports the Development Plan Design Policies. The presence of boundary screening within the guidance will safeguard the privacy of adjacent residential occupiers. The space between properties will mean that significant impacts on neighbours through loss of light or overshadowing is unlikely.

However, the loss of the hipped roofs and the introduction of a gabled pitched roof, raises design concerns as development inappropriate to its context.

The north side of Ayr Road between Shaw Road and Firwood Road is a residential street predominantly comprising early 20th century bungalow housing. Whilst there is some variety in the style of property, a consistency in scale, form, layout, frontage treatment, roof arrangement, and later adaptations of buildings can be recognised. The low-rise form of the bungalows means that the roofs are a dominant element of the street scene, and the full hips roofs reinforce the impression of detached dwellings within spacious plots. These townscape qualities are readily distinguishable from the public realm.

In design terms the introduction of a gabled pitched roof, will be visually prominent, will materially dilute these positive townscape qualities, and will erode the distinct character and appearance of the street scene.

The proposals fail to compliment the character of the host building and are not in keeping with their surroundings.

Accordingly, the proposals fail to accord with the positive placemaking aspirations of the Development Plan, and in particular Policies D1, and D1.1. of the East Renfrewshire Local Development Plan 2; and Policies 14 and 16 of the National Planning Framework⁴. Sections 25 & 37(2) of the Town & Country Planning (Scotland) Act 1997, require a Planning Authority, when dealing with any planning application, to have regard to the provisions of the Development Plan, so far as material to the application, and to any other material consideration. In this case there are no material considerations which justify setting aside the policy expectations of the Development Plan.

Recommendation: Refuse

PLANNING OBLIGATIONS: None.

RECOMMENDATION: Refuse

REASON FOR REFUSAL:

1. The proposal, through the style and form of the roof extension, fails to compliment the character of the existing building and its immediate setting, and would result in a significant loss of character, causing harm to local amenity. Such development would fail to accord with the Development Plan, and in particular Policies D1, and D1.1 of the Adopted East Renfrewshire Local Development Plan 2; and Policies 14 and 16 of the National Planning Framework 4.

ADDITIONAL NOTES:

The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848.

Further information is also available on the Coal Authority website at:
www.gov.uk/government/organisations/the-coal-authority

ADDED VALUE: None

BACKGROUND PAPERS:

Further information on background papers can be obtained from Mr Garry Dimeck on 0141 577 3001.

DEVELOPMENT PLAN:

Adopted East Renfrewshire Local Development Plan 2

Policy D1

Placemaking and Design

Proposals for development within the urban and rural areas should be well designed, sympathetic to the local area and demonstrate that the following criteria have been considered, and, where appropriate, met. Proposals will be assessed against the 6 qualities of a successful place as outlined in SPP, Designing Streets and the Placemaking and Design Supplementary Guidance.

1. The development should not result in a significant loss of character or amenity to the surrounding area;
2. The proposal should be appropriate to its location, be high quality and of a size, scale, height, massing and density and layout that is in keeping with the buildings in the locality or appropriate to the existing building and should respect local architecture, building form and design;
3. Respect existing building lines and heights of the locality;
4. Create a well-defined structure of streets, public spaces and buildings;
5. Ensure the use of high quality sustainable and durable materials, colours and finishes that complement existing development and buildings in the locality;
6. Respond to and complement site topography and not impact adversely upon the green belt and landscape character and setting, green networks, features of historic interest, landmarks, vistas, skylines and key gateways. Existing buildings and natural features of suitable quality, should be retained and sensitively integrated into proposals including greenspace, trees and hedgerows;
7. Boundary treatment and landscaping should create a distinctive edge and gateway to the development and reflect local character;
8. Promote permeable and legible places through a clear sustainable movement hierarchy favouring walking, then cycling, public transport, then the private car as forms of movement;
9. Demonstrate connectivity through the site and to surrounding spaces via a network of safe, direct, attractive and coherent walking and cycling routes. These must be suitable for all age groups, and levels of agility and mobility to allow for ease of movement from place to place;
10. Demonstrate that safe and functional pedestrian, cycle and vehicular access, and parking facilities and infrastructure, including for disabled and visitor parking, is provided in accordance with the Council's Roads Development Guide. Where appropriate, proposals will be required to provide secure and accessible shelters, lockers, showers and seating and be designed to meet the needs of all users. Cycle parking and facilities should be located in close proximity to the entrances of all buildings to provide convenience and choice for users;
11. Incorporate integrated and enhance existing green infrastructure assets, such as landscaping, trees and greenspace, water management and SUDs including access and prioritise links to the wider green network as an integral part of the design process from the outset, in accordance with Policies D4 - D6. New green infrastructure must be designed to protect and enhance the habitat and biodiversity of the area and demonstrate a net gain;
12. Unless justified, there will be a general presumption against landraising. Where there is

a justifiable reason for landraising, proposals must have regard to the scale and visual impact of the resultant changes to the local landscape and amenity. Proposals that adversely impact upon the visual and physical connections through the site and to the surrounding areas will be resisted;

13. Backland development should be avoided;
14. Provide safe, secure and welcoming places with buildings and spaces, including open spaces, play areas and landscaping, designed and positioned to reduce the scope for anti-social behaviour and fear of crime, improve natural surveillance, passive overlooking, security and street activity;
15. The amenity of residents, occupants and users of neighbouring existing and new buildings and spaces should not be adversely affected by unreasonably restricting their sunlight or privacy. Additional guidance on this issue is available in the Daylight and Sunlight Design Guide Supplementary Guidance;
16. Development should minimise the extent of light pollution caused by street and communal lighting and any floodlighting associated with the proposal;
17. The amenity of residents, occupants and users of neighbouring existing and new buildings and spaces should not be adversely affected by noise, dust, pollution and smell or poor air quality;
18. Ensure buildings and spaces are future proof designed to be easily adaptable and flexible to respond to changing social, environmental, technological, digital and economic conditions;
19. Incorporate provision for the recycling, storage, collection and composting of waste materials; and
20. Incorporate the use of sustainable design and construction methods and materials in the layout and design to support a low carbon economy.

Proposals must meet the requirements of any development brief prepared by the Council for an allocated site.

Further detailed guidance and information will be set out in the Placemaking and Design Supplementary Guidance, Householder Design Supplementary Guidance and the Daylight and Sunlight Design Supplementary Guidance.

Policy D1.1

Extensions and Alterations to Existing Buildings for Residential Purposes

Proposals will be assessed against the following criteria:

1. The development should not result in a significant loss of character or amenity to the surrounding area;
2. Should complement the scale and character of the existing building, neighbouring properties and their setting, particularly in terms of style, form and materials;
3. The size, scale and height of any development must be appropriate to and not adversely impact or dominate the existing building;
4. Should not create an unbroken or terraced appearance;
5. Where additional bedrooms are proposed or a garage/driveway is being converted to another use other than for the parking of a vehicle, proposals will be required to provide parking in accordance with the Council's Roads Development Guide; and
6. Should avoid over-development of the site by major loss of existing front and rear

garden space. No more than 50% of the rear garden should be occupied by the development.

Further detailed information and guidance will be set out in the Householder Design Guide Supplementary Guidance.

National Planning Framework 4

Policy 14

Design, quality and place

- a) Development proposals will be designed to improve the quality of an area whether in urban or rural locations and regardless of scale.
- b) Development proposals will be supported where they are consistent with the six qualities of successful places:
 - Healthy: Supporting the prioritisation of women's safety and improving physical and mental health.
 - Pleasant: Supporting attractive natural and built spaces.
 - Connected: Supporting well connected networks that make moving around easy and reduce car dependency
 - Distinctive: Supporting attention to detail of local architectural styles and natural landscapes to be interpreted, literally or creatively, into designs to reinforce identity.
 - Sustainable: Supporting the efficient use of resources that will allow people to live, play, work and stay in their area, ensuring climate resilience, and integrating nature positive, biodiversity solutions.
 - Adaptable: Supporting commitment to investing in the long-term value of buildings, streets and spaces by allowing for flexibility so that they can be changed quickly to accommodate different uses as well as maintained over time.

Further details on delivering the six qualities of successful places are set out in Annex D.

- c) Development proposals that are poorly designed, detrimental to the amenity of the surrounding area or inconsistent with the six qualities of successful places, will not be supported.

Policy 16

Quality homes

- a) Development proposals for new homes on land allocated for housing in LDPs will be supported.
- b) Development proposals that include 50 or more homes, and smaller developments if required by local policy or guidance, should be accompanied by a Statement of Community Benefit. The statement will explain the contribution of the proposed development to:
 - i. meeting local housing requirements, including affordable homes;
 - ii. providing or enhancing local infrastructure, facilities and services; and
 - iii. improving the residential amenity of the surrounding area.
- c) Development proposals for new homes that improve affordability and choice

by being adaptable to changing and diverse needs, and which address identified gaps in provision, will be supported. This could include:

- i. self-provided homes;
 - ii. accessible, adaptable and wheelchair accessible homes;
 - iii. build to rent;
 - iv. affordable homes;
 - v. a range of size of homes such as those for larger families;
 - vi. homes for older people, including supported accommodation, care homes and sheltered housing;
 - vii. homes for people undertaking further and higher education; and
 - viii. homes for other specialist groups such as service personnel.
- d) Development proposals for public or private, permanent or temporary, Gypsy/Travellers sites and family yards and Travelling Showpeople yards, including on land not specifically allocated for this use in the LDP, should be supported where a need is identified and the proposal is otherwise consistent with the plan spatial strategy and other relevant policies, including human rights and equality.
- e) Development proposals for new homes will be supported where they make provision for affordable homes to meet an identified need. Proposals for market homes will only be supported where the contribution to the provision of affordable homes on a site will be at least 25% of the total number of homes, unless the LDP sets out locations or circumstances where:
- i. a higher contribution is justified by evidence of need, or
 - ii. a lower contribution is justified, for example, by evidence of impact on viability, where proposals are small in scale, or to incentivise particular types of homes that are needed to diversify the supply, such as self-build or wheelchair accessible homes. The contribution is to be provided in accordance with local policy or guidance.
- f) Development proposals for new homes on land not allocated for housing in the LDP will only be supported in limited circumstances where:
- i. the proposal is supported by an agreed timescale for build-out; and
 - ii. the proposal is otherwise consistent with the plan spatial strategy and other relevant policies including local living and 20 minute neighbourhoods;
 - iii. and either:
delivery of sites is happening earlier than identified in the deliverable housing land pipeline. This will be determined by reference to two consecutive years of the Housing Land Audit evidencing substantial delivery earlier than pipeline timescales and that general trend being sustained; or
the proposal is consistent with policy on rural homes; or
the proposal is for smaller scale opportunities within an existing settlement boundary; or
the proposal is for the delivery of less than 50 affordable homes as part of a local authority supported affordable housing plan.
- g) Householder development proposals will be supported where they:
- i. do not have a detrimental impact on the character or environmental quality of the

- ii. home and the surrounding area in terms of size, design and materials; and do not have a detrimental effect on the neighbouring properties in terms of physical impact, overshadowing or overlooking.
- h) Householder development proposals that provide adaptations in response to risks from a changing climate, or relating to people with health conditions that lead to particular accommodation needs will be supported.

Finalised 17th October 2024 MS(C)

DECISION NOTICE

EAST RENFREWSHIRE COUNCIL

TOWN AND COUNTRY PLANNING (SCOTLAND) ACT 1997
(AS AMENDED BY THE PLANNING ETC (SCOTLAND) ACT 2006)
TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE)
(SCOTLAND) REGULATIONS 2013

REFUSAL OF PLANNING PERMISSION

Ref. No. **2024/0427/TP**

Applicant:

Dr Alison MacEwen
123 Ayr Road
Newton Mearns
G77 6RF

Agent:

Kirsten Mackenzie
30 Helensburgh Drive
Jordanhill
Glasgow
G13 1RS

With reference to your application which was registered on 28th August 2024 for planning permission under the abovementioned Act and Regulations for the following development, viz:-

Replace hipped roof with new gable roof, to include 2 dormers to front elevation and 1 dormer to rear elevation. Tiled roof finish to match existing roof tile. Internal alterations at ground and first floor. New terrace to rear of house.

at: 123 Ayr Road Newton Mearns East Renfrewshire G77 6RF

the Council in exercise of their powers under the abovementioned Act and Regulations hereby refuse planning permission for the said development.

The reason(s) for the Council's decision are:-

1. The proposal, through the style and form of the roof extension, fails to compliment the character of the existing building and its immediate setting, and would result in a significant loss of character, causing harm to local amenity. Such development would fail to accord with the Development Plan, and in particular Policies D1, and D1.1 of the Adopted East Renfrewshire Local Development Plan 2; and Policies 14 and 16 of the National Planning Framework4.

Dated 17th October 2024

GUIDANCE NOTE FOR REFUSAL OF LOCAL DEVELOPMENTS DETERMINED UNDER DELEGATED POWERS

REVIEW BY EAST RENFREWSHIRE COUNCIL'S LOCAL REVIEW BODY

1. If the applicant is aggrieved by a decision to refuse permission (or by an approval subject to conditions), the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months from the date of this notice. A Notice of Review can be submitted online at www.eplanning.scotland.gov.uk. Please note that beyond the content of the appeal or review forms, **you cannot normally raise new matters** in support of an appeal or review, unless you can demonstrate that the matter could not have been raised before, or that its not being raised before is a consequence of exceptional circumstances. Following submission of the notice, you will receive an acknowledgement letter informing you of the date of the Local Review Body meeting or whether further information is required.

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land in accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

Conclusion

In summary, the design as proposed:

- The materials and scale of the proposals blend with surrounding houses in the area.
- Ridge height does not exceed the existing ridge height.
- Has no daylight and overlooking issues with neighbouring houses.
- Does not disturb the existing building frontage line on Ayr Road.
- The existing footprint of the house remains unchanged.
- The proposed terrace area covers approximately 4% of the garden area.
- Dormers are set back from the wall head and ridge of the new roof within permitted development allowances and align with windows below.
- Rear bedroom dormer is set 20m back from the rear boundary line and front dormers area set back 12.5m from the front boundary line.

In relation to the LDP, the proposal:

- Does not result in a significant loss of character or amenity to the surrounding area.
- Is appropriate to its location, is of high quality and of a size, scale, height and massing that is in keeping with the buildings in the locality and respects local architecture, building form and design.
- Uses materials, colours and finishes that complement existing development and buildings in the locality.
- Does not create an unbroken or terraced appearance.
- Does not alter any parking arrangements on the site.
- Is not an over development of the site.

In relation to the NPF4, the proposal:

- Supports attention to detail of local architectural styles.
- Does not have a detrimental impact on the character or environmental quality of the home and the surrounding area in terms of size, design and materials.
- Does not have a detrimental effect on the neighbouring properties in terms of physical impact, overshadowing or overlooking.
- Provides adaptations that lead to particular accommodation needs.

APPENDIX 1

East Renfrewshire Local Development Plan 2 & National Planning Framework 4

Relevant guidance under the above noted policies:

1. LDP Policy D1:

1. *The development should not result in a significant loss of character or amenity to the surrounding area.*
2. *The proposal should be appropriate to its location, be high quality and of a size, scale, height, massing, density and layout that is in keeping with the buildings in the locality or appropriate to the existing building and should respect local architecture, building form and design.*
3. *Respect existing building lines and heights of the locality.*
4. *-*
5. *Ensure the use of high quality sustainable and durable materials, colours and finishes that complement existing development and buildings in the locality.*

2. LDP Policy D1.1:

1. *The development should not result in a significant loss of character or amenity to the surrounding area.*
2. *Should complement the scale and character of the existing building, neighbouring properties and their setting, particularly in terms of style, form and materials.*
3. *The size, scale and height of any development must be appropriate to and not adversely impact or dominate the existing building.*
4. *Should not create an unbroken or terraced appearance.*
5. *Where additional bedrooms are proposed or a garage/driveway is being converted to another use other than for the parking of a vehicle, proposals will be required to provide parking in accordance with the Council's Roads Development Guide.*
6. *Should avoid over-development of the site by major loss or existing front and rear garden space. No more than 50% of the rear garden should be occupied by the development.*

3. NPF4 Policy 14:

b) Development proposals will be supported where they are consistent with the six qualities of successful places:

Distinctive: *Supporting attention to detail of local architectural styles and natural landscapes to be interpreted, literally or creatively, into designs to reinforce identity.*

4. NPF4 Policy 16:

g) Householder development proposals will be supported where they:

i. do not have a detrimental impact on the character or environmental quality of the home and the surrounding area in terms of size, design and materials; and

ii) do not have a detrimental effect on the neighbouring properties in terms of physical impact, overshadowing or overlooking.

h) Householder development proposals that provide adaptations in response to risks from a changing climate, or relating to people with health conditions that lead to particular accommodation needs will be supported.
