PERFORMANCE AND AUDIT COMMITTEE

26 March 2025

Report by Chief Financial Officer

IJB STRATEGIC RISK REGISTER UPDATE

PURPOSE OF REPORT

1. This report provides the Performance and Audit Committee with an update on the IJB Strategic Risk Register.

RECOMMENDATION

2. Performance and Audit Committee is asked to note and comment on the IJB Strategic Risk Register.

BACKGROUND

- 3. In accordance with the agreed monitoring policy this report provides the Performance and Audit Committee with an update on the strategic risk register.
- 4. Good practice in the area of risk management suggest that a risk register should contain between six to eight of the most significant risk to make it a useful working document.
- 5. The risk register uses a simple, clear and effective 4 x 4 likelihood and severity risk matrix as shown below.

Likelihood	Score								
Certain	4	Low (Green))	Medium (Ye	llow)	High (Red)		High (Red)	
Likely / probable	3	Low (Green))	Medium (Ye	llow)	Medium (Ye	ellow)	High (Red)	
Possible / could happen	2	Low (Green))	Low (Green)	Medium (Ye	ellow)	Medium (Ye	ellow)
Unlikely	1	Low (Green))	Low (Green)	Low (Green)	Low (Green)
Impact		Minor	1	Significant	2	Serious	3	Major	4

6. In normal circumstances the policy states the tolerance for risk is as follows:

Risk Score	Overall rating
11-16	High/Red/Unacceptable
5-10	Medium/Yellow/Tolerable
1-4	Low/Green/Acceptable

REPORT

- 7. The Strategic Risk Register is a 'live' document; the latest version is attached at Appendix 1.
- 8. The Strategic Risk Register was reported to the last meeting of the Performance and Audit Committee which took place on 20 November 2024. Since last reported there has been little change to the risk register, however risk control measures have been reviewed and updated to reflect any proposed mitigation which has been completed, or where the expected date for completion has been extended.
- 9. Both partners are currently reviewing their risk policies and guidance therefore the review of the IJB policy has been delayed to ensure that it follows our partner processes. A training session was facilitated by Zurich for the HSCP management team in January 2025 as part of the Council's review.
- 10. In addition, members are asked to note the following:-
 - No new risks have been added
 - One risk has been removed (Analogue to Digital)
 - No risk scores have changed
 - One risk remains red post mitigation (Financial Sustainability)

Child Protection, Adult protection and Multi-Agency Public Protection Arrangements (3)

11. The 2023-25 improvement plan has been completed and an Adult Protection Committee development day is planned for May where we will finalise improvement actions for 2025-27

Access to Primary Care (6)

- 12. The risk has been updated to better reflect that GP accommodation is the main challenge in terms of accommodating the practice list populations.
- 13. A process is underway to reallocate Greenlaw patients to alternative practices; an update is included on the March IJB agenda (<u>item 11</u>).

Care at Home Service (11)

14. Due to the scale of the service the organisation change process has taken longer than expected however the full practice and new structure will be fully introduced in July.

Business Continuity, Covid-19 and Recovery (13)

- 15. We are reviewing training opportunities for business continuity roles such as Council Incident Officers, Rest Centre Managers and loggists following a change in staffing.
- 16. The recent storm Eowyn enabled the organisation to do a live test of business continuity plans and no significant issues were identified.

Analogue to Digital Switchover (14)

17. Work has been concluded to replace alarms and this no longer presents a risk to the HSCP and has therefore been removed from the register.

Post Mitigation - Red and Significant Risks Exception Report

18. Risks which score between 11-16 and rated as High/Red/Unacceptable and those which the Health and Social Care Partnership Management Team considers significant, following mitigation, should be brought to attention of the Performance and Audit Committee by an 'exception report'.

Financial Sustainability

- 19. There remains risk that the HSCP could become unsustainable due to any of the following causes:
 - Unable to deliver required savings on a recurring basis
 - Unable to remain within operational budget as a result of demand and capacity pressures
 - Unable to influence future funding to recognise demographic and other pressures, or realise future efficiencies and savings
 - Implications from hosted services should current arrangements change
 - Prescribing volatility
 - Diminished reserves limit flexibility
- 20. Discussions with both partners remain ongoing, not only recognising the audit recommendation around financial sustainability but also to focus on financial recovery following the non-recurring support for 2023/24 and 2024/25

RECOMMENDATIONS

21. Performance and Audit Committee is asked to note and comment on the IJB Strategic Risk Register.
