# Attending:

Sean McDaid, Principal Planner and Ian Walker, Senior Planner, Development Management; Graham Shankland, Principal Business Intelligence Officer; and Paul O'Neil, Committee Services Officer.

## Apologies:

Councillors Betty Cunningham (Vice Chair); and Jim McLean.

### **DECLARATIONS OF INTEREST**

**455.** There were no declarations of interest intimated.

#### APPLICATIONS FOR PLANNING PERMISSION

**456.** The committee considered reports by the Director of Environment on applications for planning permission requiring consideration by the committee.

It was agreed that the applications be determined as indicated at Appendix 1 accompanying this Minute, particular reference being made to the following:-

(i) 2017/0585/TP – Erection of 48 dwellinghouses (amendment to planning permission 2016/0712/TP to alter house types, numbers and layout at part of the site) at land at Maidenhill (to the east of the old Ayr Road) Newton Mearns by Taylor Wimpey Limited

The Principal Planner explained the reasons why the application required to be considered by the committee in the course of which he highlighted a minor amendment to the wording of Condition 13. He indicated that the maximum discharge rate from the site should be 6.5 litres per second per hectare and not 8 litres per second per hectare as detailed in the report.

Following discussion, the committee agreed that it was disposed to grant the application, subject to:-

- (a) conditions following the extant legal agreement being amended to include this planning application (2017/0585/TP) in order to ensure that the affordable housing and development contributions required were delivered; and
- (b) the wording of Condition 13 being amended to the effect that the maximum discharge rate from the site should be 6.5 litres per second per hectare and not 8 litres per second per hectare as detailed in the report.
- (ii) 2017/0586/TP Erection of 49 dwellinghouses (amendment to planning permission 2016/0712/TP to alter house types, numbers and layout at park of the site) at land at Maidenhill (to the east of Highover and Marlin Lodge), Newton Mearns by Taylor Wimpey Limited

The Principal Planner explained the reasons why the application required to be considered by the committee in the course of which he highlighted a minor amendment to the wording of Condition 13. He indicated that the maximum discharge rate from the site should be 6.5 litres per second per hectare and not 8 litres per second per hectare as detailed in the report.

Following discussion, the committee agreed that it was disposed to grant the application, subject to:-

- (a) conditions following the extant legal agreement being amended to include this planning application (2017/0586/TP) in order to ensure that the affordable housing and development contributions required were delivered: and
- (b) the wording of Condition 13 being amended to the effect that the maximum discharge rate from the site should be 6.5 litres per second per hectare and not 8 litres per second per hectare as detailed in the report.
- (iii) 2017/0587/TP Erection of 9 dwellinghouses (amendment to planning permission 2016/0712/TP to alter house types, numbers and layout at part of the site) at land at Maidenhill (to the east of Highover and Marlin Lodge), Newton Mearns by Taylor Wimpey Limited

The Principal Planner explained the reasons why the application required to be considered by the committee in the course of which he highlighted a minor amendment to the wording of Condition 12. He indicated that the maximum discharge rate from the site should be 6.5 litres per second per hectare and not 8 litres per second per hectare as indicated in the report.

Following discussion, the committee agreed that it was disposed to grant the application, subject to:-

- (a) conditions following the extant legal agreement being amended to include this planning application (2017/0587/TP) in order to ensure that the affordable housing and development contributions required were delivered; and
- (b) the wording of Condition 12 being amended to the effect that the maximum discharge rate from the site should be 6.5 litres per second per hectare and not 8 litres per second per hectare as detailed in the report.
