Mark introduced himself to the group; he gave an update on his background, they are also a partner agency in the annual Safety in the Park event with a scenario on Emergency grab bags, which should consists of Water, Energy Bar, Radio, Pen & Paper for use in a Safe House.

They work in 4 areas, Inverclyde, Renfrewshire, East Renfrewshire, & West Dumbarton.

Emergency events that could happen include:

- **Weather** - floods, snow, storms ice or heat wave
- **Industrial** - loss of power, heating or water; chemical or nuclear leak
- **Disease** - pandemic flu or animal disease
- **Transport accident** - road, rail, air or sea

When an emergency occurs, the **emergency services are the first to deal with the situation**. Local authorities assist the emergency services in certain situations.

Every local authority has an emergency planning team who create and implement plans to prevent and respond to emergencies. Emergency planning aims to prevent emergencies from occurring, and if the emergencies do occur, implement plans to reduce and control the threats

There was also a discussion surround a road accident which happened at St Marks school because of all the irresponsible parking, this is not the first road accident to happen at St Marks Primary.

A letter was send to the Chief Executive of East Renfrewshire Council with concerns about Cllr Aiken becoming a Independent Councillor, and despite the fact he has not been seen in Barrhead, Neilston or Uplawmoor, but recently seen in the Barrhead News raising concerns about Carlibar Bridge, despite emails & one formal invitations was sent to him inviting him to attend Barrhead Community Council in December 2017.

The written response was read out at the meeting, however Cllr Aiken refused to stand down, he is allowed to continue as an elected member representing the electorate of Barrhead, Liboside & Uplawmoor.
