Report by Director of Environment

EAST RENFREWSHIRE LOCAL TRANSPORT STRATEGY MAIN ISSUES
CONSULTATION – TRANSPORT SURVEY

PURPOSE OF REPORT

1. The purpose of this report is to inform the Cabinet on East Renfrewshire's Local Transport Strategy (LTS) and seek approval to commence consultation with community and stakeholders to support LTS development.

RECOMMENDATIONS

2. The Cabinet is asked to:
- a) Note background to LTS Main Issues Consultation; and
 - b) Review and approve the Transport Survey (Appendix 1), which will be utilised to support community engagement.

BACKGROUND

3. East Renfrewshire Council (ERC) is developing a new LTS. The LTS will replace the previous LTS (2008-2011)¹, setting out the vision for transport in East Renfrewshire and establish a framework for transport decision making and investment over the next 10 years.

4. Although there is no statutory requirement for local authorities to have an LTS in place, Local Transport Strategies have a statutory basis in the Transport (Scotland) Act 2001. This sets out how local authorities intend to deliver on national objectives at a local level, and provides a delivery plan for meeting local challenges and objectives.

5. The LTS follows publication of National Transport Strategy 2² (approved 2020) and the new Regional Transport Strategy for the west of Scotland³ (approved 2023). These strategies outline ambitious visions for delivering sustainable, inclusive, safe and accessible transport system for a healthier, fairer and more prosperous society.

6. The LTS will therefore consider how local transport and access priorities align with national and regional strategies in addition to local policy outcomes, such as East Renfrewshire's Community Plan⁴ and Local Development Plan 2⁵ objectives.

⁵ <https://www.eastrenfrewshire.gov.uk/ldp2>

7. The 'Main Issues' is the first stage of LTS development and will gather evidence, facilitate community & stakeholder engagement, seek feedback on future priorities and help shape future policy options. This will determine how ERC responds to transport problems and challenges, such as the realities of climate change and development of transport networks.

REPORT

8. Transport – the movement of people and goods – is fundamental to society and key to overall wellbeing and prosperity. As well as providing access to opportunities, transport can also act as a barrier reflecting inequalities faced by some communities.

9. Transport systems (and associated demands on space) influences how environments are shaped and how people move around. These travel choices can result in transport problems, which in turn can have societal consequences.

10. Future LTS objectives must therefore recognise social, environmental and economic contributions of transport and reflect principles such as sustainability, equality and net-zero. East Renfrewshire Council have produced a draft 'Case for Change' report⁶ which draws on national, regional and local policy objectives, as well existing evidence, issues, opportunities and experiences relating to transport in the area. This also considers preliminary Transport Planning and Strategy Objectives for the purposes of community and stakeholder engagement.

11. The Main Issues Consultation provides a mechanism to share information and gather feedback. This is considered critical in shaping future LTS priorities, not only to address key transport problems and challenges, but also to ensure shared priorities meet the needs and aspirations of local communities.

FINANCE AND EFFICIENCY

12. An £80,000 grant has been awarded via the Sustrans' Places for Everyone programme to support LTS development and associated appraisals.

CONSULTATION

13. Findings of previous community and stakeholders consultation and engagement is summarised within the draft Case for Change report¹.

14. Subject to cabinet approval, the LTS Main Issues consultation will last approximately 12 weeks. The transport survey - both a public and dedicated Citizen Panel surveys - will be live for a period of approximately 8 weeks. The survey will be the primary data collection method as part of the Main Issues community outreach. Responses will be collated, analysed and included as part of the final Main Issues Case for Change report to inform LTS policies and priorities.

⁶ Draft Case for Change report - https://www.eastrenfrewshire.gov.uk/media/8684/Local-Transport-Strategy-Full-case-for-change-report-draft/pdf/East_Renfrewshire_LTS_Case_for_Change_-_consultation_draft_V2.pdf?m=638106677183570000

PARTNERSHIP WORKING

15. The LTS Main Issues consultation seeks to engage with a diverse range of individuals and organisations. Specific effort will be made to reach out and engage stakeholders and community networks. This may involve representatives groups, such as community councils, groups, forums etc. and include written correspondence and remote or in person workshops.

16. It should be noted that initial LTS 'Main Issues' discussions with services and elected members has already commenced.

IMPLICATIONS OF THE PROPOSALS

17. The 'Main Issues' is the first stage of LTS development. Subsequent stages include:

- Developing the LTS (summer-autumn 2023); this will outline LTS policies and high level actions for further consultation
- Delivering the LTS; following approval of strategy, develop plans on how key priorities will be delivered. Draft delivery framework(s) due early 2024.

18. Future financial implications associated with a new LTS, such as capital and revenue requirements, are key considerations, but remain largely unknown at this stage.

19. An integrated Equality, Fairness and Rights Impact Assessment will be undertaken to support LTS development in line with the Council's Equality Duty of Care.

20. A Climate Change Impact Assessment will be undertaken to support LTS development. It should be noted that the development of an LTS and associated plans are key actions within the emerging Climate Action Plan for East Renfrewshire.

CONCLUSIONS

21. This will set out the vision for transport in East Renfrewshire and establish a framework for transport decision making and investment in the area over the next 10 years.

RECOMMENDATIONS

22. The Cabinet is asked to:

- a) Note background to LTS Main Issues Consultation; and
- b) Review and approve the Transport Survey (Appendix 1), which will be utilised to support community engagement.
